Reasons for choosing SAP	We needed a system that is flexible and could handle our sales, finance and logistics and could support our future growth. SAP Business One is a perfect match for our type of company.
Key benefits	SAP Business One has a very unique traceability of transaction in the system. We have full control of all the parts and raw material in our products. Using the flexible integration options, we have now integrated to the Certification system, in our business it's essential to serve our customers with this kind of documentation.
Customer quotes	<i>“SAP Business One is a good fit solution for our company. We run our business processes in it and it's fully integrated to the certification system required for our industry. Adiles even brought the localization support to a next level with their Norwegian country pack, for example the direct banking integration saves us a lot of time.</i>
